CREATES A 90° OUTSIDE CORNER WHILE ELIMINATING THE NEED FOR A MITERED EDGE

FINISH: EA, EN, BRZ

FOR USE WITH **edgetek** R 516 EA

Compare to: RO 80 AE, RO 80 AT

ADA Compliance

Many of the trims and transitions offered by Futura Transitions are compatible with ADA 2010 Standards section 303 Changes in Level and section 504.5 Nosings. However, installers and contractors must insure that the finished installation, including any Futura Transitions product complies with current ADA standards when the project specifies an ADA requirement. For more information on ADA standards visit https://www.ada.gov/2010ADAstandards_index.htm

CREATING THE PERFECT GROUT LINE

EdgeTek[™] has been engineered to create a perfect grout line by extruding a feature into the product that holds the tile the perfect distance from the reveal along the length of the trim. This allows you to create a perfectly straight grout line that looks great every time.
